Press Release

August-2019

AUDIO ANALOGUE

Audio Analogue has appointed tmh audio as the exclusive US Distributor

Audio Analogue, based in the Tuscany region of Italy, designs and manufactures sonic & visual masterpieces using advanced technology with audiophile & military grade components...and hand crafted with world class quality.

The newest "Anniversary" series has won world acclaim for its ZERO Global Feedback design to produce startling lifelike sound...with all of the "audiophile" attributes.

ZERO Global Feedback is rare in high-end audio as it's rather challenging to properly implement; however, the Audio Analogue team has successfully achieved this feature.

A few benefits from ZERO Global Feedback

- A more pure sound with accurate harmonic tonality
- Easier to drive difficult loudspeaker loads
- Fast, tightly controlled bass
- Precise location of voices & instruments in their own space

*"The **Maestro Anniversary** manages to bring music to life, to play loud without strain, to drive speakers hard and with complete control, with fantastic musical insight, even into the deepest bass notes. When music sounds this sweet, detailed, cohesive and fast with fantastic leading edge clarity and sound stage clarity its a joy to listen to, a joy that keeps pulling you back for more." - ["PursuitOfThePerfectSystem"-UK](#)*

Maestro Anniversary **Dual-Mono** Integrated Amplifier (US\$9100)

- Dual-Mono Preamp
- Dual-Mono Amplifier (150w/ch – tested @ 200w/ch)
- Dual-Mono Custom Transformers **2x600VA** (1200VA total)
- [AirTech OCC Copper](#) Cables/AC Cords (Cryo + "SRC" Magnetic Induction Treatment)
- **More Anniversary Series info:** <http://www.tmhaudio.com/Anniversary.html>

*"The **Maestro & Puccini Anniversary** integrated amps are so clear, detailed, fast, tonally accurate with pure, lifelike vocals that are vivid & just "there". These are far superior to any amp that has passed thru our doors...including uber-expensive 300B SET amps" - tmh audio*
